CONSTITUTIONAL AMENDMENTS

The following amendments to the constitution are submitted to a vote of the people by the legislature.

CONSTITUTIONAL AMENDMENT A

A JOINT RESOLUTION, Proposing and agreeing to an amendment to section 13, Article VI of the Constitution of the state of South Dakota, relating to disposition of private property taken for public use.

Attorney General's Explanation:

Under present law, land may be condemned or taken for various public uses, including the use for railroad tracks or public highways. The Constitution now provides that when land is condemned for railroad tracks or public highways, the fee ownership remains in the original owner. This amendment addresses what is to occur when use of the particular land for railroad tracks or public highway ceases. Under the present constitutional provision, the particular land would be returned to the original owner or his heirs. The proposed amendment will change the present law if, at the time the use of the land for railroad tracks or public highway ends, the original owner is deceased.

The proposed amendment provides that when the original owner of the land is no longer living at the time the use of the land for railroad tracks or public highway purposes ends, the Legislature could provide for the disposition of such property in a way that best served the interest of the State. The Legislature could, and may be required to, provide that a preference be given to the adjoining owners.

CONSTITUTIONAL AMENDMENT B

A JOINT RESOLUTION, Proposing and agreeing to an amendment to section 12, Article III of the Constitution of the state of South Dakota, relating to eligibility for legislative office.

Attorney General's Explanation:

Our State Constitution now prohibits a State Legislator, during the term for which the Legislator was elected or one year thereafter, from being directly or indirectly interested in any contract with the State or any county when the contract, or its funding, is authorized by any law passed during the term for which the Legislator was elected. This Constitutional Amendment would create an exception to this restriction which would allow a State Legislator to enter into a contract with the State or any county if the contract is awarded on competitive bids.

CONSTITUTIONAL AMENDMENT C

A JOINT RESOLUTION, Proposing and agreeing to a new section to Article XI of the Constitution of the state of South Dakota, relating to the imposition of an income tax.

Attorney General's Explanation:

At the present time, Article XI, Section 2 of the South Dakota Constitution permits the Legislature to enact an income tax. This amendment would prohibit enactment of an income tax by the Legislature unless the revenue generated is dedicated to fund elementary and secondary education and to provide a replacement for taxes on real property. In addition, no personal or corporate income tax adopted by the Legislature would become effective until it was approved by a majority of those voting on the issue at a general or special statewide election.

CONSTITUTIONAL AMENDMENT D

A JOINT RESOLUTION, Proposing and agreeing to a new section to Article III of the Constitution of the state of South Dakota, relating to sessions of the legislature.

Attorney General's Explanation:

The State Constitution requires that the State Legislature shall meet in regular annual sessions, but at no other time unless specified in the Constitution. Presently, a special session of the Legislature may be convened only by the Governor. The proposed amendment would require the presiding officers of both houses to convene a special session when presented with a written petition requesting the session, signed by two-thirds of the members of each house, and stating the purposes of the session. Only business which falls within the purposes listed in the petition could be addressed at such a legislative session.

CONSTITUTIONAL AMENDMENT E

A JOINT RESOLUTION, Proposing and agreeing to a new section to Article XI of the Constitution of the state of South Dakota, relating to a limit on the growth of taxes on real property.

Attorney General's Explanation:

At present, the State Legislature has imposed limitations by statute on the rate of property taxation by governmental units but there are no constitutional limits on those rates. This Amendment would impose, in the Constitution, a limit of a two percent increase per year on real property tax revenue payable to a governmental unit.

The Amendment provides for several exceptions to the two percent revenue increase limitation. The Amendment provides that a governmental unit could increase its revenues through increased taxation on improvements to real property, through taxation of any new property incorporated into a governmental unit by annexation or minor boundary changes, and through adjustments of taxation of property whose use has been changed or reclassified. Moreover, the Amendment would not affect tax levies for repayment of indebtedness incurred after December 31, 1989, for certain school district purposes or tax levies to pay judgments of the courts. Any taxing district formed, or any school district reorganized after 1990 would be exempt from the two percent limitation for two years.

Any governmental unit could opt out of the two percent increase limit for a one year period by an affirmative vote of two- thirds of its governing body. The governing body's decision to opt out of the limit could be referred to a special election by a petition of five percent of the registered voters of the district.

INITIATED MEASURES

The following measures have been placed upon the ballot by initiative petitions containing signatures of five percent of the voters and filed in accordance with the Constitution, and these proposed measures will not become laws unless approved by the people.

INITIATED MEASURE 1

AN ACT ENTITLED, An Act relating to legislative approval for the siting, construction, or operation of a large-scale solid waste facility.

Attorney General's Explanation:

This initiative, if passed, would require Legislative approval of all permits issued by the Board of Minerals and Environment which authorize the siting, construction, or operation of a large-scale solid waste facility. It applies only to those facilities which dispose of or incinerate over two hundred thousand tons of solid waste per year.

The initiative will be retroactive to July 1, 1989. It directs the Board of Minerals and Environment to stop the operation of any existing large-scale solid waste facility until the Legislature finds the facility to be environmentally safe, in the public interest, and approves the permit.

At the present time, one such facility would be closed by this initiative, until approved by the Legislature. If this facility is legally operating upon passage of this initiative, the question of whether the owners are entitled to compensation from the State will have to be addressed.

INITIATED MEASURE 2

AN ACT ENTITLED, An Act relating to a large-scale gold or silver mining operation being granted a permit by the Board of Minerals and Environment under specific conditions.

Attorney General's Explanation:

This initiative requires that a large-scale gold or silver mining operation be granted a permit by the Board of Minerals and Environment only if the total amount of land under permit in the Black Hills does not exceed 3,100 acres. When the total "affected land" equals 3,100 acres, a large-scale mining operation could only obtain or amend a permit for new lands by: (1) relinquishing land which was permitted and either reclaimed or not mined; (2) obtaining permitted land from other mine operators; or (3) reclaiming previously mined, but unreclaimed lands.

"Affected land" is currently defined as land which has:

1. Had the waste rock and topsoil removed;
2. Had waste deposited on it; or
3. Been disturbed by surface mining or surface affects of underground mining, i.e. access roads, warehouses, and storage areas.

Affected mining operations include large-scale gold and silver surface and underground mines. A large-scale mining operation is one which affects more than ten acres, excluding access roads, and extracts more than 25,000 tons of ore or waste rock and topsoil per calendar year. No limitation is placed on the quantity of land which could be affected by small-scale gold and silver mining operations.
